# Mini-GoPle Quickguide

## About mini GoPle

ACOWA mini-GoPle is a level pressure transmitter with a diameter of 13mm, 16mm or 19mm.

The mini-GoPle is a precise 2-wire transmitter with a silicon piezo-resistive measurement system and a sensor membrane in AISI316 stainless steel.

ACOWA Mini-GoPle is calibrated and uses both atmospheric pressure and temperature compensation in its amplifier circuit to translate the absolute pressure of the measurement medium to a precise standard voltage or current signal.

## Applications

ACOWA Mini-GoPle is designed for use in water supply and waste water applications.

- Hydraulic monitoring
- Deep well level measurement
- Liquid measuring for city water supply
- Sewage treatment
- Tank level monitoring
- Water-saving irrigation
- Ground water monitoring

## Features

- Diameter: Ø13mm, Ø16mm or Ø19mm
